

# francie™ & Barbie

## GUIDE SHEET

### GO-GO WITH THE "PRIMAS"

The most popular place in town... the best Rock and Roll group around... congenial friends and cokes for all. The boys dressed in "stove pipes" . . . "London Look" caps . . . "Mismatch collars and cuffs" . . . some wearing the "military look" jacket. The girls with "Mini" skirts. Design other garments and color them in the new popular combinations of colors. Let's invite couples from other pages and really move it.

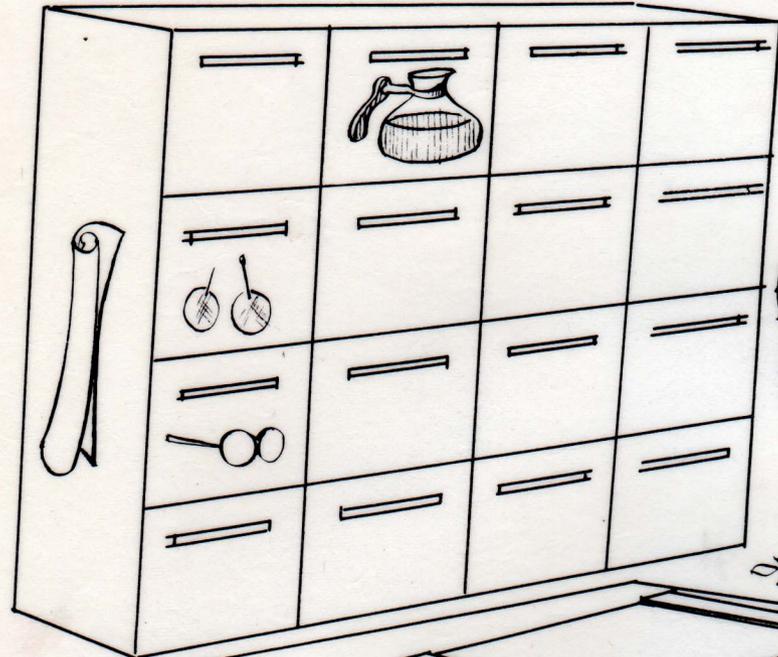

### "SHOPPING IS FUN"

The shops are full of "mod" clothes to suit every teen "queen." "Military look" outfits present a trim smooth appearance. The mini-skirt with wide bright stripes lead off in another direction "Somewhere Else." Did you notice the various hat caps on display. Find out what kind of shoes are "mod." Look for ideas for designs and colors in the many fashion magazines. Borrow from other pages. Design your own fashion sheets with only one outfit on a page.

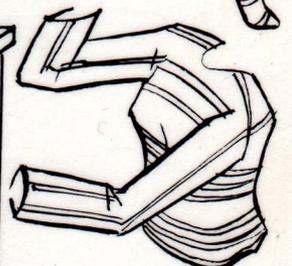

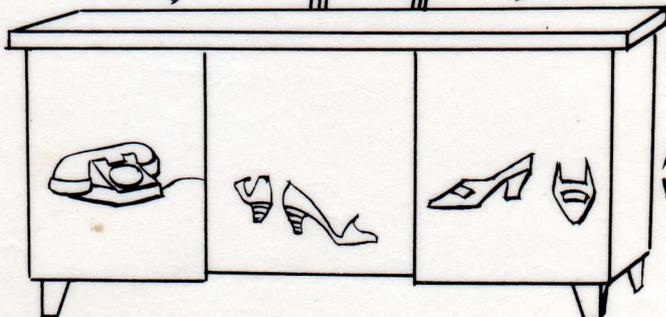

### "READ THE BLAB"

Our young friends are helping to put out the school paper. Their school is famous for the clever newspaper Francie and Barbie help put out. The girls design their own costumes. You can help them. Make up your own "long lean" styles, "young 'n' kicky" styles to go anywhere, do everything. It's fun. Get other costume ideas from other pages and use all of the different color combinations you can think of. Make 'em "zingy."

### "CARNABY SQUARE"

A popular locale for the many singing groups is Carnaby Square in the Soho district, to see the many styles that are "in." A few hours on this corner will be a parade of new ideas for the teen age crowd. Wild orange, off green, "flattering as a blush" pink... there is no end to the many fashion colors worn by the "in" crowd. Wide stripes. Big plaids, even paisley patterns are bright and right. Put the kids from other sheets into this picture.
